

# Emergency Closures

## Emergency Closures Policy

*On account of weather conditions*

*e.g. heavy snowfall, strong winds or flooding*

If the Board of Management decides the school should not open on account of weather conditions, the school will Text-A-Parent and post on the school website.

If the bad weather is prolonged over a number of days parents will be informed of re-opening dates through Aladdin Connect. We will also put up this information on the school website.

If the school has *already* in operation when such a situation occurs, staff will remain on premises until all children have been collected by either parents/guardians. In exceptional cases it may be considered safer for all to remain on the premises.

**Please note;** All half days and in-service closures are notified to parents at least one week in advance.
